LUSHUN PROBABLE SLBM TRACKING FACILITY LIAODONG PENINSULA, CHINA (S)

1. (S/D) Lushun Probable SLBM Tracking Facility [REDACTED], China, was newly identified on imagery of [REDACTED] (Figure 1). This facility is part of an SLBM at-sea test range being established in the Bohai Strait/Yellow Sea area. The facility is on a hilltop near the southern coast of the Liaodong Peninsula, approximately 6 nautical miles (nm) northeast of Lushun. The tracking facility consists of one circular and one semicircular antenna building (both with an attached control building), three control/administration buildings, and foundations for five other buildings.
